WORK EXPERIENCE

Data Analyst Tesser Insights

11/2020 - Present

Bengaluru, KA, IN

A platform that can deliver analytical business insights to operational systems, at speed, in a subscription model, while keeping the complexity out.

Nature of work

- Developed and deployed automated data wrangling and ML modules in Azure with API layer interaction and code deployment using Azure CI/CD processes and GIT integration for managing codebase.
- Intimate knowledge on ARM scripts for automated resource deployment in Azure.
- Designed and Implemented entire pipelines from data migration from multiple data sources to ETL operations in ADF and finally to building, training, and deploying models in Azure ML studio.
- Google Cloud Services Data Wrangling and ML model creation and deployment (Vertex AI).
- Developed API layer using FASTAPI in python with JWT authentication and PostgreSQL backend.
- Currently involved in developing ML solutions using PySpark + Azure Synapse.
- Developed Automated python scripts to perform backend operations.

Founder - AVP of Business Development Odo Technologies

08/2019 - 07/2020

Bengaluru, KA, IN

The company helped bridge the gap between the Edu Tech companies and the Institutions with 3000+ students + faculty to cater to their UMS/CMS/ERP solutions.

Nature of work

- Involved in negotiating contracts with value over 35 lakhs INR.
- Integrated 3rd party software solutions and worked as a solutions architect for involved parties by connecting the educational institutes with 3rd party software providers.
- Involved in strategizing the implementation of paperless exams infrastructure and handshaking the data into the UMS and vice versa.
- Was awarded AEGIS Grahambell Annual Award (10th Edition) 2019 in the category of Innovation in Ed-Tech.

TOOLS

Microsoft SQL Server Management Studio
